A line of decorative ribbons specifically studied for the most natural respect for the environment. This is the eco-friendly material 'par excellence' properly treated for ensuring stability, tactile sensation and subsequent workability. This line includes star-bows, pull-bows and, it goes without saying, the decorative ribbon.

A truly unique feature is represented by the inkjet customization of these ribbon thanks to the innovative and portable that can be programmed by smartphone or tablet to transfer, with a simple gesture, messages, drawings or logos on the surface of the ribbon at the moment of its real use. Thanks to this printers it is also possible to decorate woven ribbons, gift wrapping papers and shopping bag to enrich and complete the emotion of giving.
